RESONUS

RESONUS – Your Trading Partner for the FMCG Sector

Welcome to RESONUS. And a warm welcome from Markus Born himself, the General Manager of our trading company based in Hamburg, Germany. We are an industry partner and distributor for specialist wholesalers and retail sellers of brand-name items.

We are a company with a small team who has built a worldwide network of suppliers and customers. Since the end of 2010 we have discovered new ways to more quickly and flexibly react to special requests in the FMCG sector. New products and new markets call on us every day. Together we will make you successful.

Our Brand Expertise

The RESONUS GmbH, based in Hamburg, brings two sectors together:

Our trade involvement with FMCG products, which operates under our RESONUS Warenhandelsgesellschaft mbH & Co. KG.

And RESONUS New Channels mbH & Co. KG, which we are using to expand our trade expertise, with a focus on online trade, the marketing of production surpluses, and agency business.

MARKETS

International Commodity Trading – We're Always on the Move, Just for You

We are flourishing internationally with operations in Germany, western, and southern Europe, and we even have a worldwide trade network in the FMCG sector. This is a fast-paced industry that is constantly changing, which equates to some fierce competition.

We are convinced that nerves of steel and an energetic drive is something learned, not something we are born with. So we will keep moving, just for you. General Manager Markus Born loves to hop on his bike to speed to the office. Weaving in and out of harbor traffic and not letting 40-tonne trucks slow him down. You can expect a balanced performance and the right amount of flow from us.
